

To whom it may concern:

I would like all information emailed to concerning the Criminal History Records Check. I was recently informed by an airport being operated under Part 139, that because I have a bad check charge that that airport or any other airport for that fact WILL NOT offer me a position of any kind in airport operations.

At 41 years of age with an aviation degree from an aeronautical university, and fragmented aviation experience, it was a real blow to find out that that rule has been put into affect.

Again, I would like to receive all info pertaining to this matter.

Thank you.
